Control Culture Request Form

Date Received:	
Date Shipped:	
Recorded:	
State Lab Use Only	

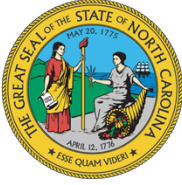

Required Information:

Name:	
Facility:	
*Shipping Address:	
City:	
State:	
Zip Code	
Email:	
Telephone:	
Responsible Person:	

Organisms cannot be shipped to post office boxes

Please specify your preference for shipping:	
--	--

ORGANISMS	PURPOSE- Include information regarding the use of organisms. If for quality control, specify type of media, reagents, or test system. Note: Environmental labs will receive cultures on slants and clinical labs will receive lyophilized specimens unless otherwise specified
ENVIRONMENTAL LABS:	
Escherichia Coli ATCC #25922	
**Klebsiella Variicola ATCC #31488	
Pseudomonas Aeruginosa ATCC #27853	
Enterococcus Faecalis ATCC #29212	
Serratia Marcescens ATCC #43862	
Aerococcus Viridans ATCC #10400	
***Klebsiella Aerogenes ATCC #13048	

Laboratory Improvement

CLINICAL LABS:	
*Staphylococcus aureus ATCC# 25923	
*Escherichia coli ATCC #25922	
Pseudomonas aeruginosa* ATCC #27853	

*Indicates organisms used for Quality Control

**Please note Klebsiella Pneumoniae has changed to Klebsiella Variicola

***Please note Enterobacter Aerogenes has been changed to Klebsiella Aerogenes

Email Request to: slph.lhdsupplies@dhhs.nc.gov

PLEASE ALLOW UP TO TWO WEEKS FOR DELIVERY

Control Cultures are available commercially.

Most companies provide individual organisms and kits containing commonly used organisms.
